

# LED Canopy Light

40-75W

*153LM/W*

Intertek

5011224

*You can have more choices*

## Now THAT's low profile.

With a super-sleek design, keeps glare under control and hangs less than 2.5" from the ceiling, helping to avoid damage to SUVs and roof racks

## Multi-level lighting control.

LT-YC is available with an optional integrated motion sensor, which ensures the fixture is on when it's needed and dimmed or off when it's not.

### Mounting versatility

LT-YC accommodates 1/2" Nps pendant and surface mount options pendant provided by others.

### Better light distribution

precision engineered optics deliver 20% uplight, eliminating gloomy dark spots on the ceiling and creating smooth and even light distribution throughout the space

### Easy to install

hinged tether frees up your hands for faster wiring and install also includes a junction box with four side conduit entries and universal knockouts that match every surface and recessed box we could find.

*Any way you want it.*
